Styling and Customizations:

1. Page Background & Text

- The background color is set to light blue to make the website look fresh and inviting.
- The text font is Arial, which is easy to read.
- Everything is centered to keep the layout clean and organized.

2. Headings (Titles & Subtitles)

- The main title (h1) is black and centered to stand out.
- Subheadings (h2 and h3) use the Georgia font to give the website a bit of variation throughout
- Links are bold, white, and without underlines so they stand out clearly.

3. Images

- Images have rounded corners for a modern look.
- A shadow effect is added to make images stand out.

4. Footer (Bottom Section)

- The background color is light purple which complements the rest of the page.
- Padding and spacing are added so the footer doesn't feel too close to the content.
